Please join us on January 15th at Park Towne Place Museum District Residences for the opening reception of *Structures* in the North, West, and South Towers. The opening reception will begin in the North Tower, and then move to the West Tower, and then to the South Tower. Each tower will offer an opportunity to hear short remarks from the included artist or curator, and a chance to mingle. Refreshments and hors d'oeuvres will be served. We look forward to seeing you at this next installment of art at Park Towne Place!

*Structures* is an exploration of structural systems that we see, construct, experience, and that permeate our daily lives. Structures is broken into three subsections with each one spanning its own gallery. The included works in *Frame*, exhibited in the South Tower, all relate to the act of framing either in their invocation of architecture, or in using one material to highlight another. *Shelter*, in the North Tower, includes work that utilize base forms that invoke shelters either literally or through the use of vessel forms. The work in *Growth*, in the West Tower, utilize small parts and through repetitive and layering techniques, highlight the relationship between the small parts of something and a whole that is much more complex.
